

# WPA Do-It 2022 Members Showcase Sign-up

The Members Showcase will take place on Saturday night, beginning at approximately 7:30PM, and lasting about 20 minutes depending on participation. If you have a question or don't understand our process, please ask someone. Here are the ground rules -

- All product must be properly labeled and turned in by 2PM on Saturday. The turn-in location is Mike Garrett's manufacturing site.
- You may submit a maximum of 3 items (flexible depending on the level of participation).
- All product must be ready for ignition with *either* Visco fuse or e-match installed.
  - Small product such as mines, 5" and smaller simple shells, wheels and rockets should use Visco. Large or complicated devices should use e-match. Consider how likely is the device to be a danger to the volunteer staff? When in doubt, ask!
  - Shells 6" and larger in diameter must have e-match and drop line installed.
  - All multi-break shells must use steel guns, have a drop line, and e-match installed.
  - Items *larger than 10"* in diameter need staff approval and you will have to do your own installation in the gun. Coordinate with us to avoid conflicts.
- All products are subject to review for safety by staff. We reserve the right to refuse product deemed unsafe. You will have a chance to fix the issue.
- **Clearly label your product with your name and assigned tracking number.**
- Fill out the form below and submit it with your product - *one form per item entered.*

+++++

1. *Print your name:* \_\_\_\_\_

2. *Circle one item:* Ball Shell    Cylinder Shell    Multi-break Cylinder Shell    Rocket  
Girandola    Wheel    Chromatope    Fountain    Mine    Other (describe below)

3. *Size:* \_\_\_\_\_ (Other): \_\_\_\_\_

4. *Description* - tell us what you want the announcer to say about your entry.
